Conference Goals

The EuroMed Academy encourages collaboration among scholars, researchers, and practitioners. It provides opportunities for publication with leading publishers and also offers access to funded research and consulting opportunities. With a focus on cross-cultural cooperation, the Academy aims to address social differences and support sustainable economic progress at regional and international levels.

The Annual EuroMed Academy conference is widely regarded as an influential event in the field, noted for its in-depth content and the calibre of those in attendance. The gathering creates a supportive environment for senior academics, mid-career and early-career faculty, doctoral candidates, and business practitioners to connect, receive guidance, and engage in research-related discussions. The event's highlights include publication opportunities in top-tier, internationally reputable journals and book series (all ranked and indexed), an ISBN Conference Book of Proceedings, networking and collaboration workshops, meetings with editors and reviewers, and specialised sessions that offer paper development support and various conference distinctions. Participants can attend the Research Project Workshop to refine their studies, initiate collaborative projects, and seek EU funding opportunities. Participants from over 60 countries are expected to come together in a setting that is both highly professional and relaxed, creating what many describe as a strongly networked, family-like atmosphere.

Author Guidelines

The EuroMed Academy Conference invites the submission of manuscripts in the form of a **Paper** or an **Extended Abstract**. Authors who submit an Extended Abstract for blind review should not submit a Paper at the Final Submission stage. All accepted manuscripts will be presented at the conference and published in the Book of Proceedings (with ISBN and ISSN). The best papers will also be included in a Scopus-indexed edited Book volume.

Submissions should strictly adhere to the following Author & Formatting Guidelines:

Papers: https://euromedacademy.org/Author-Formatting-Guidelines-for-Papers.pdf.

Extended Abstracts: https://euromedacademy.org/Author-Formatting-Guidelines-for-Extended-Abstracts.pdf.

The maximum number of submitted papers or abstracts accepted per author (either single or co-author) is two. Submissions are going through a double blind review with the understanding that accepted papers/abstracts will be presented at the conference by at least one of the authors.

The EuroMed Academy Conference invites you to submit manuscripts online at https://euromed2026.exordo.com. To assist you with the submission process, please read **https://help.exordo.com/submitting-an-abstract/paper.**
